Aims and objectives of the qualification

The main aim of the IAO Level 2 Certificate in Supporting Teaching and Learning in Schools is to enable Learners to gain the necessary practical skills and knowledge in order to become teaching assistants in schools. Areas such as child and young person development, safeguarding, and health and safety are covered, among other skills and knowledge areas. Learners also have the option to tailor the qualification to their employment needs via a selection of optional units.

Entry guidance

There are no formal entry requirements for this qualification.

This qualification is suitable for those who work, or who are looking to work within the education and teaching sector. It provides learners with an opportunity to demonstrate their knowledge and competence.

Progression opportunities

Learners who achieve this qualification could progress to the IAO Level 3 Certificate in Supporting Teaching and Learning in Schools, or they could enter a teaching assistant role.

Innovate Awarding

When you work with Innovate Awarding, you're working with an awarding organisation that sets itself apart – a dynamic company with a collaborative approach to doing business. We're consultative and innovative...everything that our customers say they want an awarding organisation to be.

We're easy to work with, committed and passionate about exceeding our customers' expectations. We're not tied down by bureaucracy and red tape and can think outside the box and respond quickly to our customers' needs.

We have a Performance Pledge that details guaranteed response times. Copies of these can be found on our website www.innovateawarding.org

Feedback

Your feedback is very important to us. We're always open to suggestions when it comes to enhancing and improving our services, products and systems. Email us at contactus@innovateawarding.org or call us on 0117 314 2800.

Complaints

If we do get things wrong, we'll make every effort to resolve your issues quickly and efficiently. If you'd like to raise a formal complaint then we recommend you read our Complaints Procedure which can be found on our website.

Fees

Our fees structure is transparent and straightforward. Our fees are published on our website in a clear format with no hidden charges. Unlike other awarding organisations, we do not charge an annual centre fee. Visit our website to compare our fees.

Enquiries and appeals

We recognise that sometimes decisions are made that a centre (or learner) may wish to appeal. We have an Enquiries and Appeals Policy and Process on our website that sets out guidelines on grounds for appeal and the process.

Data Protection

Innovate Awarding takes the protection of data seriously; we have a data protection statement outlining how we and our centres, comply with the current legislation on data protection. This statement can be found on our website.

Equality and Diversity

Innovate Awarding is committed to giving everyone who wants to gain one of our qualifications an equal opportunity of achieving it in line with current UK legislation (Equality Act 2010) and EU directives.

Centres are required, as conditions of approval, to use an equality and diversity policy that works together with ours and that they maintain an effective complaint and appeals process. We expect centres to tell learners how to find and use their own equality and diversity and appeals processes. For information, please visit our website.

Reasonable Adjustment and Special Consideration

All learners must be treated fairly and equally and be given every opportunity to achieve our/the qualifications. A copy of our policy on Reasonable Adjustments and Special Considerations, and application form, can be found on our website.

Malpractice and Maladministration

Innovate Awarding has a responsibility to do everything it can to prevent any malpractice or maladministration from occurring, and where it has already occurred, ensuring action is taken proportionate to the gravity and scope of the occurrence.

A copy of our policy and procedure on Malpractice and Maladministration is available on our website.

Recognition of Prior Learning (RPL)

RPL recognises how the contribution of a learner's previous experience could contribute to a qualification or unit. Innovate Awarding have produced guidance on RPL and this can be found within our Information and Guidance for Centres on our website

Please note the above is not a comprehensive guide to running qualifications. Once approved centres must adhere to the Centre Agreement and Information and Guidance for Centres.

The Regulated Qualifications Framework (RQF)

What is the RQF?

The Regulated Qualifications Framework (RQF) is an Ofqual regulated system of cataloguing qualifications. Qualifications on the RQF can be found by their size or level. Qualifications at a given level can differ depending on their content and purpose.

All of Innovate Awarding's qualifications are on the RQF.

Qualification Level

The level reflects the challenge or difficulty of the qualification. There are eight levels of qualification from 1 to 8, supported by three "Entry" levels.

Qualification Size

The size of a qualification reflects the estimated total amount of time it would take the average learner to study and be assessed. The size of a qualification is expressed in terms of Total Qualification Time (TQT). The time spent being taught or supervised, rather than studying alone, is the Guided Learning Hours (GLH).

Qualifications can sit at different levels, but require similar amounts of study and assessment. Similarly, qualifications at the same level can take different amounts of time to complete.

Credit values

Every unit and qualification on the RQF has been given a credit value, which denotes the number of credits that will be awarded to each candidate who successfully completes the unit or qualification.

- **1 credit represents 10 notional learning hours**

Notional learning hours represent the amount of time a learner is expected to take, on average, to complete the learning outcomes of the unit to the standard required within the assessment criteria. It is important to note that notional learning hours is not the same as guided learning hours (GLH). GLH represents the hours during which a tutor or trainer is present and contributing to the learning process. Notional learning hours represents the hours which are needed to successfully cover all the learning required to achieve the unit, either guided or independently.

RQF terminology

Whilst the evidence outcomes required from RQF and NVQ units are the same, the RQF units use different terminology to the NVQ units. The assessment criteria for NVQ units are 'what you must do' and 'what you must know' whereas the RQF units are all 'the Learner can' or 'the Learner is able to'.

Rules of Combination (RoC)

Every qualification on the RQF is structured through Rules of Combination. Rules of Combination are important because they define the number of credits which need to be achieved and where these credits must come from in order for a Learner to achieve the qualification. Rules of Combination also state what the potential is for Learners who wish to transfer credits between qualifications and awarding bodies.

Skills for Care and Development RQF Assessment Principles

1. Introduction

1.1 Skills for Care and Development (SfC&D) is the UK sector skills council (SSC) for social care, children, early years and young people. Its structure for realising the SSC remit is via an alliance of six organisations: Care Council for Wales, Children's Workforce Development Council, General Social Care Council, Northern Ireland Social Care Council, Scottish Social Services Council and Skills for Care.

1.2 This document sets out those principles and approaches to RQF unit/qualification assessment not already described in the Regulatory Arrangements for the Qualifications and Credit Framework. The information is intended to support the quality assurance processes of Awarding Organisations that offer qualifications in the Sector, and should be read alongside these. It should also be read alongside individual unit assessment requirements. Additional information/guidance regarding individual unit assessment can be obtained from Awarding Organisations, or from Skills for Care and Development. This must be used in order to provide the proper context for learning and assessment.

1.3 These principles will ensure a consistent approach to those elements of assessment which require further interpretation and definition, and support sector confidence in the new arrangements.

1.4 Where Skills for Care and Development qualifications are joint with Skills for Health, Skill for Health will also use these assessment principles.

2. Assessment Principles

2.1 Assessment decisions for competence based learning outcomes (e.g. those beginning with 'to be able to') must be made in a real work environment by an occupationally competent assessor. Any knowledge evidence integral to these learning outcomes may be generated outside of the work environment but the final assessment decision must be within the real work environment.

2.2 Assessment decisions for competence based Learning Outcomes must be made by an assessor qualified to make assessment decisions.

2.3 Competence based assessment must include direct observation as the main source of evidence

2.4 Simulation may only be utilised as an assessment method for competence based Learning Outcomes where this is specified in the assessment requirements of the unit'.

2.5 Expert witnesses can be used for direct observation where: they have occupational expertise for specialist areas or the observation is of a particularly sensitive nature. The use of expert witnesses should be determined and agreed by the assessor.

2.6 Assessment of knowledge based Learning Outcomes (e.g. those beginning with 'know' or 'understand') may take place in or outside of a real work environment.

2.7 Assessment decisions for knowledge based Learning Outcomes must be made by an occupationally knowledgeable assessor.

2.8 Assessment decisions for knowledge based Learning Outcomes must be made by an assessor qualified to make assessment decisions. Where assessment is electronic or undertaken according to a set grid, the assessment decisions are made by the person who has set the answers.

3. Internal Quality Assurance

3.1 Internal quality assurance is key to ensuring that the assessment of evidence for units is of a consistent and appropriate quality. Those carrying out internal quality assurance must be occupationally knowledgeable in the area they are assuring and be qualified to make quality assurance decisions.

4. Definitions

4.1 Occupationally competent:

This means that each assessor must be capable of carrying out the full requirements within the competency units they are assessing. Being occupationally competent means they are also occupationally knowledgeable. This occupational competence should be maintained annually through clearly demonstrable continuing learning and professional development.

4.2 Occupationally knowledgeable:

This means that each assessor should possess relevant knowledge and understanding, and be able to assess this in units designed to test specific knowledge and understanding, or in units where knowledge and understanding are components of competency. This occupational knowledge should be maintained annually through clearly demonstrable continuing learning and professional development.

4.3 Qualified to make assessment decisions:

This means that each assessor must hold a qualification suitable to support the making of appropriate and consistent assessment decisions. Awarding Organisations will determine what will qualify those making assessment decisions according to the unit of competence under assessment. In any case of significant uncertainty the SSCs will be consulted.

4.4 Qualified to make quality assurance decisions:

Awarding Organisations will determine what will qualify those undertaking internal quality assurance to make decisions about that quality assurance.

4.5 Expert witness:

An expert witness must:

- have a working knowledge of the RQF units on which their expertise is based
- be occupationally competent in their area of expertise.
- have EITHER any qualification in assessment of workplace performance OR a professional work role which involves evaluating the everyday practice of staff.

Skills for Health Assessment Principles for Qualifications that Assess Occupational Competence

Version 2.6

October 2012

1. Introduction

1.1 Skills for Health is the Sector Skills Council (SSC) for the UK health sector.

1.2 This document sets out those principles and approaches to Qualifications and Credit Framework (RQF) unit/qualification assessment not already described in the Regulatory Arrangements for the RQF. The information is intended to support the quality assurance processes of Awarding Organisations that offer qualifications in the Sector, and should be read alongside these. It should also be read alongside individual unit assessment requirements.

1.3 These principles will ensure a consistent approach to those elements of assessment which require further interpretation and definition, and support sector confidence in the new arrangements.

1.4 These principles apply to qualifications and the units therein that assess occupational competence i.e. those under Purpose D.

2. Assessment Principles

2.1 Learners must be registered with the Awarding Organisation before formal assessment commences.

2.2 Assessment decisions for competence based units must be made by an occupationally competent assessor primarily using evidence generated in the workplace during the learners normal work activity. Any knowledge evidence integral to these learning outcomes may be generated outside of the work environment.

2.3 Assessment decisions for competence units must be made by an assessor who meets the requirements set out in the qualification's assessment strategy. Where the Awarding Organisation requires that the assessor holds, or is working toward, a formal RQF qualification, that qualification should be the Level 3 Certificate in Assessing Vocational Achievement. Assessors holding the D32/33 or A1 qualifications are not required to re-qualify. Where an Awarding Organisation does not expect the assessor to hold or be working toward a formal qualification we would expect that Awarding Organisation to ensure that the assessor meets the same standards of assessment practice as set out in the Learning and Development National Occupational Standard 09 Assess learner achievement.

2.4 Competence based units must include direct observation in the workplace as the primary source of evidence.

2.5 Simulation may only be utilised as an assessment method for learning outcomes that start with 'be able to' where this is specified in the assessment requirements of the unit. The use of simulation should be restricted to obtaining evidence where the evidence cannot be generated through normal work activity. Where this may be the case the use of simulation in the unit assessment strategy will be agreed with Skills for Health.

2.6 Expert witnesses can be used for direct observation where they have occupational expertise for specialist areas or the observation is of a particularly sensitive nature. The use of expert witnesses should be determined and agreed by the assessor.

2.7 Assessment decisions for knowledge only units must be made by an assessor qualified to make the assessment decisions as defined in the unit assessment strategy.

3. Internal Quality Assurance

3.1 Internal quality assurance is key to ensuring that the assessment of evidence for units is of a consistent and appropriate quality. Those carrying out internal quality assurance must be occupationally knowledgeable in the area they are assuring and be qualified to make quality assurance decisions.

3.2 Skills for Health would expect that where the Awarding Organisation requires those responsible for internal quality assurance to hold formal RQF qualifications that these would be the Level 4 Award in the Internal Quality Assurance of Assessment Processes and Practice or the Level 4 Certificate in Leading the Internal Quality Assurance of Assessment Processes and Practice, as appropriate depending on the role of the individual. Those responsible for internal quality assurance holding the D34 or V1 qualifications are not required to re-qualify. Where an Awarding Organisation does not expect those responsible for internal quality assurance to hold or be working toward a formal RQF qualification we would expect that Awarding Organisation to ensure that those responsible for internal quality assurance meet the standard of practice set out in the Learning and Development National Occupational Standard 11 Internally monitor and maintain the quality of assessment.

4. Definitions

4.1 Occupationally competent:

This means that each assessor must be capable of carrying out the full requirements within the competence unit/s they are assessing. Occupational competence must be at unit level which might mean different assessors across a whole qualification. Being occupationally competent means they are also occupationally knowledgeable. This occupational competence should be maintained through clearly demonstrable continuing learning and professional development. This can be demonstrated through current statutory professional registration.

4.2 Occupationally knowledgeable:

This means that each assessor should possess relevant knowledge and understanding, and be able to assess this in units designed to test specific knowledge and understanding, or in units where knowledge and understanding are components of competency. This occupational knowledge should be maintained through clearly demonstrable continuing learning and professional development.

4.3 Qualified to make assessment decisions:

This means that each assessor must hold a relevant qualification or be assessing to the standard specified in the unit/qualification assessment strategy.

4.4 Qualified to make quality assurance decisions:

Awarding Organisations will determine what will qualify those undertaking internal quality assurance to make decisions about that quality assurance.

4.5 Expert witness:

An expert witness must:

- have a working knowledge of the RQF units on which their expertise is based;
- be occupationally competent in their area of expertise;
- have EITHER a qualification in assessment of workplace performance OR a professional work role which involves evaluating the everyday practice of staff.

Training and Development Agency for Schools RQF Assessment Principles

1. Introduction

1.1 The Training and Development Agency for Schools (TDA) is the sector body for the school workforce in England. The TDA's vision for qualifications for school support staff was set out in its Sector Qualification Strategy for school support staff which was published in January 2009 after widespread consultation with the sector.

1.2 These Assessment Principles set out the approaches to RQF unit/qualification assessment not already described in the Regulatory Arrangements for the Qualifications and Credit Framework issued by Ofqual. The information is intended to support the quality assurance processes of Awarding Organisations that offer qualifications in the Sector, and should be read alongside these. It should also be read alongside individual unit assessment requirements.

1.3 These principles are derived from those developed by Skills for Care and Development (SfCD). A large number of units covered by the SfCD assessment principles are included in qualifications for the children's workforce in schools to support integrated ways of working and workforce mobility. Consistency of approach in assessment across units developed by different sectors will support awarding organisations to develop clear and fit for purpose assessment methodologies.

1.4 These principles will ensure a consistent approach to those elements of assessment which require further interpretation and definition, and support sector confidence in the RQF arrangements.

1.5 These principles apply to those units developed by the TDA. Units included in qualifications for school based staff that have been developed by other Sector Skills Councils or Sector Bodies will need to be assessed in accordance with any assessment principles and requirements set by those organisations.

2. Assessment Principles

2.1. Assessment decisions for criteria that must be assessed in the workplace, as identified in unit assessment requirements, must be made in a real work environment by an occupationally competent assessor.

2.2 Assessment decisions for criteria that must be assessed in the workplace (competence based assessment criteria) must be made by an assessor with the expertise to make assessment decisions.

2.3 Competence based assessment must include direct observation as the main source of evidence.

2.4 Simulation may only be utilised as an assessment method for competence based assessment criteria where this is specified in the assessment requirements of the unit.

2.5 Expert witnesses can be used for direct observation where:

- they have occupational expertise for specialist areas, or
- the observation is of a particularly sensitive nature.

The use of expert witnesses should be determined and agreed by the assessor.

2.6 Assessment of criteria not identified in the unit assessment requirements as requiring assessment in the workplace may take place in or outside of a real work environment.

2.7 Assessment decisions for knowledge based assessment criteria must be made by an occupationally knowledgeable assessor.

2.8 Assessment decisions for knowledge based assessment criteria must be made by an assessor qualified to make assessment decisions. Where assessment is electronic or undertaken according to a set grid, the assessment decisions are made by the person who has set the answers.

3. Internal Quality Assurance

3.1 Internal quality assurance is key to ensuring that the assessment of evidence for units is of a consistent and appropriate quality. Those carrying out internal quality assurance must be occupationally knowledgeable in the area they are assuring and be qualified to make quality assurance decisions as determined by the Awarding Organisation.

4. Definitions

4.1 Occupationally competent:

This means that each assessor must be capable of carrying out the full requirements within the competency units they are assessing. Being occupationally competent means they are also occupationally knowledgeable. This occupational competence should be maintained annually through clearly demonstrable continuing learning and professional development.

4.2 Occupationally knowledgeable:

This means that each assessor should have relevant knowledge and understanding, and be able to assess this in units:

- designed to test specific knowledge and understanding, or
- where knowledge and understanding are components of competency.

This occupational knowledge should be maintained annually through clearly demonstrable continuing learning and professional development.

4.3 Qualified to make assessment decisions:

Awarding Organisations must ensure that those making assessment decisions have the necessary expertise to do so, which may include having, or be working towards, appropriate qualifications.

4.4 Qualified to make quality assurance decisions:

Awarding Organisations will determine what will qualify those undertaking internal quality assurance to make decisions about that quality assurance.

4.5 Expert witness:

An expert witness must:

- have a working knowledge of the RQF units for which they are providing witness testimony
- be occupationally competent in their area of expertise
- have EITHER any qualification that includes assessment of workplace performance AND/OR a professional work role which involves evaluating the everyday practice of staff.

Additional information about this unit

Bilingual learners are those who have been exposed to two or more languages. The term encompasses both those who are newly arrived and who are new to the language used to deliver the curriculum, and those more advanced bilingual learners who can communicate confidently in the language used to deliver the curriculum but need further support with language use in academic contexts.

Target language is the additional or second language needed by bilingual learners to access the curriculum i.e. English as an additional language (EAL) or Welsh/Gaeilge as a second language.

Techniques to support the learning and language development needs of individual learners eg:

- introducing, explaining and illustrating key vocabulary related to subject content
- scaffolding writing tasks, for example modelling writing action (such as correct letter formation), matching, sequencing, providing writing frames and word banks
- scaffolding oracy, for example using frameworks for talking and active listening tasks
- modelling oral and written language to support acquisition
- integrating speaking, listening, reading and writing in the target language, and using one language skill to support and reinforce another
- reinforcing language learning and understanding through repetition, highlighting vocabulary learnt, summarising and recording what has been learnt and creating opportunities to revisit key concepts through questioning
- encouraging learner responses and promoting interaction using different forms of questioning
- using culturally accessible learning materials
- using peer support to promote thinking and talking in first languages to support understanding

Unit aim(s)

This unit provides the knowledge, understanding and skills to support bilingual learners. It is suitable for those who provide support for English as an additional language (EAL), or Welsh or Gaeilge as a second language. The unit requires demonstration of competence in supporting bilingual learners in language development and learning in the appropriate second or additional language.

Assessment requirements specified by a sector or regulatory body (if appropriate)

This unit must be assessed in accordance with the TDA assessment principles. All of the assessment criteria must be assessed in the workplace

Additional information about this unit

Assessment for learning involves using assessment, as part of teaching and learning, in ways that will raise learners' achievement.

Information required to support assessment for learning:

- the learning objectives for the activities
- the personalised learning goals for individual learners
- the success criteria for the learning activities
- the assessment opportunities and strategies relevant to own role in the learning activities

Personalised learning goals will reflect the learning objectives of activities and take account of the past achievements and current learning needs of individual learners.

Assessment opportunities and strategies are the occasions, approaches and techniques used for ongoing assessment during learning activities, such as:

- using open-ended questions
- observing learners
- listening to how learners describe their work and their reasoning
- checking learners' understanding
- engaging learners in reviewing progress
- encouraging learners to keep in mind their learning goals and to assess their own progress to meeting these as they proceed

<ul style="list-style-type: none"> • encouraging learners to review and comment on their work before handing it in or discussing it with the teacher • praising learners when they focus their comments on their personalised learning goals for the task
